## RVTS ENHANCED TARGETED RECRUITMENT PILOT

The Remote Vocational Training Scheme (RVTS) is assisting the recruitment of doctors to targeted remote communities with high medical workforce need by including the RVTS GP Vocational Training program as a component of the doctor recruitment package.

The RVTS Targeted Recruitment strategy is an Australian Government Initiative. Since the first appointment under the RVTS Targeted Recruitment pilot in 2018, RVTS has successfully assisted the recruitment of 14 doctors to locations with high medical workforce need across Australia, supporting 18 communities, including five Aboriginal Medical Services.

RVTS Training is a four-year GP training program delivered by Distance Education and Remote Supervision leading to Fellowship of the ACRRM and/or RACGP. RVTS Training is fully funded by the Australian Government. Targeted Recruitment locations may also be eligible for Salary Support funding from the Australian Government.
